PROFESSIONAL SUMMARY

Motivated and detail-oriented BCA graduate with practical training in Full Stack Web Development specializing in the MERN stack. Passionate about building responsive, user-friendly web applications and solving real-world problems through clean and efficient code. Eager to learn, grow, and contribute to innovative projects in a dynamic software development environment.

WORK EXPERIENCE

Full Stack Developer (MERN) Trainee | **Query Finders Solution** **May 2025 – May 2026**

- Worked on real-world web application development using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Built responsive, intuitive, and user-friendly web interfaces across modern browser platforms.
- Wrote clean, reusable, efficient, and well-documented code adhering to industry standards.
- Collaborated closely with cross-functional team members to troubleshoot issues and deliver key product features.
- Learned and actively implemented software engineering best practices in full-stack development.

PROJECTS

Music Maven - Full-Stack Music Streaming Web Application [Completed] **Feb 2025 – Apr 2025**

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a feature-rich, full-stack music streaming web application enabling seamless media playback.
- Implemented secure user authentication, personalized playlists, search functionality, and interactive UI components.
- Designed robust backend REST APIs connected to MongoDB for optimized audio data management.

Local Service Marketplace [Completed] **Mar 2026 – May 2026**

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Architecting a digital marketplace platform connecting local consumers directly with service providers.
- Developing complete booking workflows, service catalog filtering, user profiles, and rating mechanisms.
- Building secure user authentication modules and scalable database schemas for seamless service transactions.
